🎓 EDUCATION

- | | |
|--------------------------------------|--|
| 09/2023 – present
Porto, Portugal | Ongoing BSc in Electrical and Computer Engineering
Faculty of Engineering of the University of Porto ↗ |
| 09/2020 – 06/2023
Porto, Portugal | Secondary Education in Graphic Production
Salesianos do Porto ↗ |

💼 PROFESSIONAL EXPERIENCE

- | | |
|--------------------------------------|---|
| 10/2022 – 05/2023
Porto, Portugal | Internship in a work context
Salesianos Editora ↗ |
|--------------------------------------|---|

📁 ACADEMIC PROJECTS

- | | |
|-------------------|---|
| 03/2025 – present | Robotics Introduction ↗
Study of a small rotatory DC motion robot
<i>Analysis and testing of a pre-built robot featuring a DC motor with an encoder, a reflected light sensor, a wireless and USB processing unit, battery-powered operation, and infrared capabilities.</i> |
| 02/2024 – 05/2024 | ESDA-Data Structures and Algorithms ↗
"Netflix Simulator"
<i>Development of a C++ project focused on implementing algorithms for organizing and searching TV series. Utilized data structures such as vectors, lists, nodes, and binary trees, along with algorithms like Dijkstra's algorithm for search optimization.</i> |
| 02/2026 – Present | [PI] Magnetic Levitator Demonstrator
Project/Intership at SYSTEC
<i>Development and commissioning of a magnetic levitation prototype. Focus on transitioning a system previously tested in a rapid prototyping environment (breadboard), to a final integrated analog and digital solution, using/adjusting a dedicated PCB provided for this purpose.</i> |

🧠 SKILLS

Programming Languages
